### Far Infrared Rays and Migun Beds

The far infrared rays have outstanding effect on caloric consumption and weight control, burning 600 to 2,400 calories in a 30 minute session of Migun bed. The infrared thermal system stimulates the consumption of energy equal to that expended in a 6 to 9 mile run. The far infrared rays also flushes out toxins from the lymph areas and from the largest organ of elimination, the skin and restores a healthy body

**IT'S MORE THAN A MASSAGE. IT'S BEEN CLINICALLY RESEARCHED, TESTED AND PROVEN TO IMPROVE YOUR HEALTH.**
