

The first thing you will need to do is delete your MobilEcho app.

- 1) Tap and hold on the mobilEcho App for 2-3 second until it starts to wiggle.
- 2) Tap the X in the upper left hand corner of the mobilEcho icon to delete it

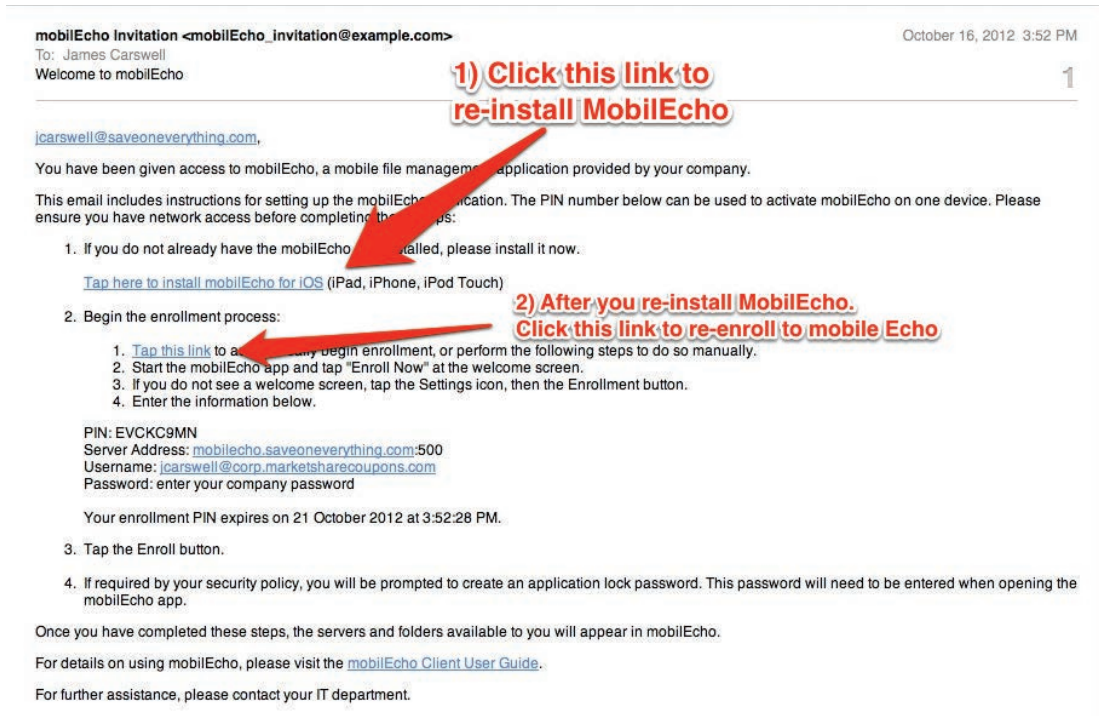

3) A screen will appear confirming that you want to delete your App. Click Delete

4) Go to the mobilEcho email invitation that was sent to you. Click the link that says "Tap here to install mobilEcho"

This will automatically take you to the MobilEcho page in the App store

5) When the MobilEcho page opens. Click the INSTALL button to begin your download

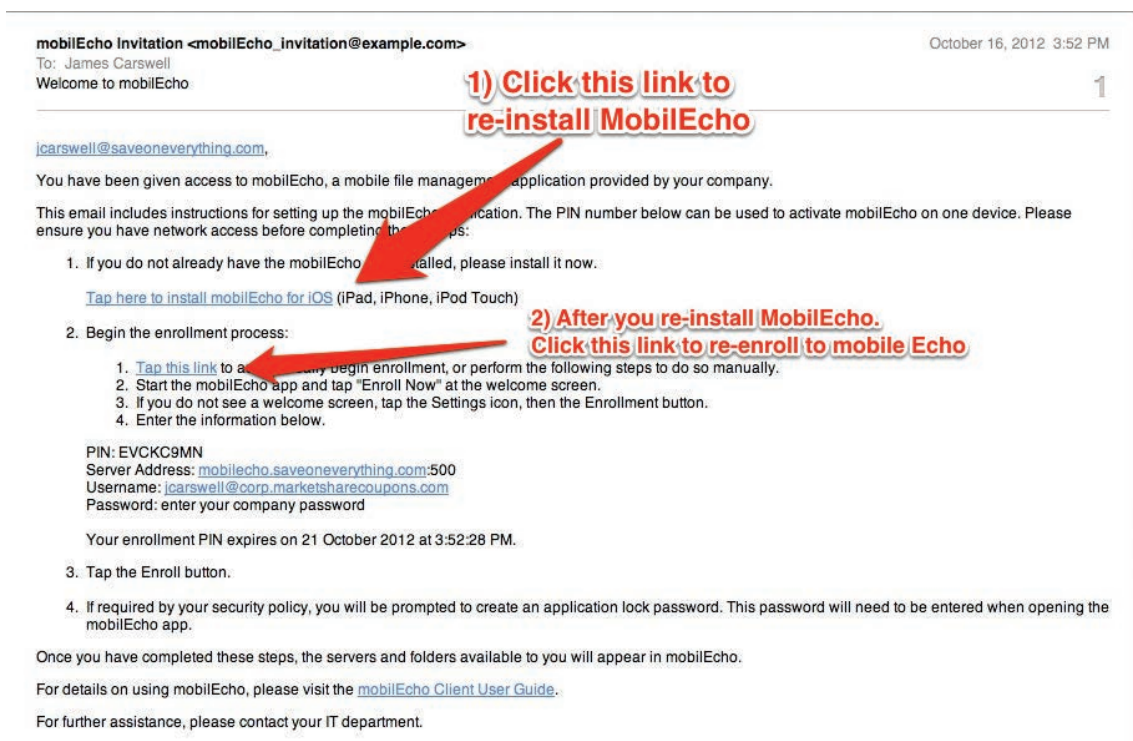

7) After you click INSTALL the MobilEcho App will automatically download to your device. When the blue task bar is finished your App has finished downloading

8) After the MobilEcho App has been re-installed go back to your email invite and click on the link that says “Tap this link to enroll”

9) Mobilecho will automatically launch and fill in your user credentials. Under Password, type in you CITRIX Log -In Password.

10) Then Click the Enroll Now button

11) A dialog box will appear with a security warning. Click PROCEED ALWAYS

12) A dialog box will appear telling you , you are now enrolled with mobilEcho client management. Click OK and you will be good to go.
